SEO / GEO / AEO Audit Report

FULL AUDIT · SCORE DIFF

SEO	GEO	AEO
8/10	**7/10**	**8/10**
Strong +1	*On Track +1*	*Strong +1*

17 October 2026 · compared with the audit earlier the same day

Claude Skill and Plugin by Alex Labat

Executive Summary

This pass measures the live site after the limit wording, the Firmify organization link, and the blog were deployed. The earlier audit the same day scored SEO 7, GEO 6, and AEO 7. The site is now SEO 8, GEO 7, and AEO 8. The false "25 pages" answer is gone from the homepage HTML. Image to PDF grew from 309 to 635 words and compress from 320 to 583. What still holds the scores down is a company byline instead of a person, a few URLs under 300 words, short meta descriptions, and a placeholder ads.txt.

Score change

Baseline is the full audit of the live site earlier on 17 October 2026, before this deployment was visible.

Dimension	Earlier	Now	Change	Why it moved
SEO	7/10 On Track	**8/10 Strong**	**+1**	Head-term pages crossed 500 words. Titles, short descriptions, and ads.txt did not change.
GEO	6/10 On Track	**7/10 On Track**	**+1**	The citable limit is now consistent, Firmify EOOD is in Organization schema, and /blog is live. There is still no person.
AEO	7/10 On Track	**8/10 Strong**	**+1**	The featured-snippet answer for the image cap is now the correct 25-image sentence.
Combined	**20/30**	**23/30**	**+3**	

Current scores

Dimension	Score	Status	Key takeaway
SEO	**8/10**	Strong	Catalog markup is intact and the main tool pages are no longer thin.
GEO	**7/10**	On Track	Facts and the operator entity are citable. A human author is still missing.
AEO	**8/10**	Strong	FAQ and HowTo markup now sit on top of a correct limit answer.

Pages Audited

Fetched on 17 October 2026. Word counts are visible text with scripts and styles removed. The earlier word counts in the score-change notes are from the same method.

URL	Type	Notes
/	Homepage	FAQ now states the 25-image cap. 712 words.
/pdf-tools	Directory	Full catalog. Title is 69 characters.
/about	About	Firmify EOOD plus a link to the blog. 250 words.
/contact	Contact	Three emails. No phone or street address.
/security	Trust	Network-tab verification and library names.
/compatibility	Matrix	Browser table. 173 words.
/changelog	Freshness	Entries through 24 July 2026. 129 words.
/privacy	Policy	Meta description is 89 characters.
/terms	Policy	Fetched. Long description, short title.
/blog	Blog index	Live. Three posts by Firmify EOOD.
/blog/image-to-pdf-limit	Article	BlogPosting. Explains the 25-image cap. 287 words.
/blog/how-local2pdf-processes-files	Article	BlogPosting. Local processing. 276 words.
/blog/when-to-compress-a-pdf-locally	Article	BlogPosting. Safe vs image-heavy. 261 words.
/sitemap.xml	Sitemap	Direct fetch 200. 35 URLs, including /blog.
/llms.txt	AI summary	Operator, price, image cap, and the new blog link.
/robots.txt	Crawl rules	Major AI crawlers allowed.
/ads.txt	Ads	Still the placeholder pub-XXXXXXXXXXXXXXXX.
/tools/image-to-pdf	Head tool	635 words, up from 309. No '25 pages' string in HTML.
/tools/compress-pdf	Head tool	583 words, up from 320. Meta description still 91 characters.
/tools/merge-pdf	Head tool	434 words. Use cases and limitations.
/tools/split-pdf	Tool	380 words.
/tools/pdf-to-jpg	Head tool	514 words, up from 285.
/tools/pdf-to-png	Tool	508 words, up from 275.
/tools/pdf-to-text	Tool	516 words, up from 287.
/tools/jpg-to-pdf	Landing	586 words.
/tools/png-to-pdf	Landing	508 words.
/tools/webp-to-pdf	Landing	659 words.
/tools/heic-to-pdf	Landing	498 words.
/tools/photos-to-pdf	Landing	517 words.
/tools/screenshot-to-pdf	Landing	493 words.
/tools/combine-images-to-pdf	Landing	464 words, up from 241.
/tools/rotate-pdf	Tool	551 words.
/tools/reorder-pdf-pages	Tool	378 words.

/tools/delete-pdf-pages	Tool	494 words.
/tools/extract-pdf-pages	Tool	481 words.
/tools/add-page-numbers-to-pdf	Tool	280 words. Still under 300.
/tools/crop-pdf	Tool	514 words. Meta description 104 characters.
/tools/resize-pdf-pages	Tool	487 words, up from 250.
/tools/n-up-pdf	Tool	517 words.
/tools/extract-images-from-pdf	Beta	noindex. 250 words. Kept out of the sitemap.

SEO Analysis

Score: 8/10, up from 7/10.

Technical On-Page

Signal	Finding	Status
Title tags	Unique and keyworded. Homepage is 47 characters. Several tools still exceed 60 once "| Local2PDF" is added. /pdf-tools is 69. /add-page-numbers-to-pdf is 64.	Needs Attention
Meta descriptions	Present and unique. Homepage 138. Compress PDF is 91, crop is 104, privacy is 89. Blog descriptions are 110-129.	Needs Attention
H1	One H1 on every HTML page fetched, including the three new articles.	Good
Canonicals	Self-referencing canonicals on indexable pages, including /blog and each post.	Good
Robots	index, follow sitewide. extract-images-from-pdf remains noindex.	Good
Open Graph	Tool pages use /og/{slug}.png. Trust pages and the homepage still share /og-image.png.	Needs Attention
Internal links	Footer now includes Blog. Tool pages link related tools. The blog links back to About.	Good

Content Quality

Signal	Finding	Status
Head-term depth	Image to PDF is 635 words (was 309). Compress is 583 (was 320). PDF to JPG is 514 (was 285). These clear a 500-word floor.	Good
Remaining thin URLs	Add Page Numbers is 280 words. The three posts are 261-287. About is 250. Changelog is 129. Compatibility is 173.	Needs Attention
Freshness	Blog posts are dated 17 October 2026. Changelog and sitemap lastmod still stop at 24 July 2026 for older URLs.	Needs Attention
Readability	Steps, FAQs, use cases, and a new guide section on the expanded tools.	Good

Structured Data

Signal	Finding	Status
Organization	Live JSON-LD now includes parentOrganization Firmify EOOD, a Bulgaria postal country, and sameAs for GitHub and Product Hunt.	Good
WebApplication + FAQ + HowTo	Still present on tool pages, with BreadcrumbList.	Good
BlogPosting	Each of the three posts has BlogPosting, with author Firmify EOOD and publisher pointing at the site Organization.	Good
Sitemap	Direct request returned XML with 35 URLs, including /blog and the three posts.	Good

GEO Analysis

Score: 7/10, up from 6/10. Generative engines can now repeat the image cap without contradicting the homepage.

E-E-A-T Assessment

Signal	Finding	Status
Named author	Byline is the company Firmify EOOD, not a person with credentials. That is a named operator, not a named individual.	Needs Attention
Operator in schema	parentOrganization is now in the homepage JSON-LD. About and the blog repeat Firmify EOOD.	Good
Contact	support@, privacy@, and security@ on /contact. No phone or street address.	Needs Attention
Trust copy	Security page still invites a Network-tab check and names jsPDF and pdf-lib. No testimonials or press.	Needs Attention

Content for AI Synthesis

Signal	Finding	Status
Limit fact	Homepage FAQ now says image-to-PDF is limited to 25 images, and other tools depend on the device. The string "25 pages per conversion" is gone from the homepage and image-to-PDF HTML.	Good
llms.txt	Still states the operator, the free price, the 25-image cap, and now links the blog.	Good
Article depth	The limit article is specific, but at 287 words it is a note, not a reference piece.	Needs Attention
External citations	Libraries are named. Their documentation is not linked. No third-party benchmark.	Needs Attention

Technical GEO

Signal	Finding	Status
AI crawlers	robots.txt allows GPTBot, OAI-SearchBot, ChatGPT-User, Google-Extended, PerplexityBot, anthropic-ai, and CCBot.	Good
llms.txt and ai.txt	Both are live. ai.txt still points at About, Security, Privacy, and the tool directory.	Good
HTTPS and HTML	Copy and JSON-LD are in the initial HTML.	Good
Speakable / Person	No SpeakableSpecification and no Person node.	Missing

AEO Analysis

Score: 8/10, up from 7/10.

Featured Snippet Eligibility

Signal	Finding	Status
Direct answer	The homepage question "How many images can I convert at once?" is answered with the 25-image rule in one paragraph.	Good
Definition	About still opens with "Local2PDF is a privacy-first PDF toolkit."	Good
Lists and tables	How-to steps remain. Compatibility is still the only comparison table.	Needs Attention

Structured Answer Formats

Signal	Finding	Status
FAQ schema	Homepage and tools. The homepage accepted answer now matches the visible FAQ.	Good
HowTo schema	Still on the tool pages.	Good
Question headings	FAQs are questions. Section titles are still "How to compress a PDF", not "How do I compress a PDF?".	Needs Attention
Speakable	Not present.	Missing

Voice Search Readiness

Signal	Finding	Status
Conversational answers	Short "No" answers remain easy to read aloud.	Good
Long-tail URLs	HEIC, screenshots, n-up, page numbers, and text extraction each have a URL.	Good
Local NAP	Email and country only. Not a local-service business.	Needs Attention

Priority Recommendations

Priority	Issue	Dimension	Effort	Impact
High	Lengthen Add Page Numbers and the three blog posts past 500 words	SEO	Medium	High
High	Add a real person as author, or state why the company is the author	GEO	Low	Medium
Medium	Rewrite meta descriptions under 120 characters, starting with compress and crop	SEO	Low	Medium
Medium	Replace the ads.txt placeholder publisher ID	SEO	Low	Medium
Quick Win	Turn "How to ..." headings into questions above the existing steps	AEO	Low	Medium
Quick Win	Trim titles that exceed 60 characters after the brand suffix	SEO	Low	Low

Core Web Vitals and backlinks were not measured. Use PageSpeed Insights at pagespeed.web.dev for speed.

What's Working Well

Strength	Evidence from this crawl
Limit is consistent	Homepage FAQ, image-to-PDF copy, and llms.txt now agree on 25 images, not 25 pages.
Operator in the graph	Organization JSON-LD includes parentOrganization Firmify EOOD and Bulgaria.
Blog is live	/blog returns 200 with three dated posts and BlogPosting markup.
Head terms got longer	Image to PDF, compress, and PDF to JPG moved from about 300 words to 514-635.
Tool schema held	WebApplication, FAQ, HowTo, and breadcrumbs are still on the tool pages.
AI crawl policy	The same explicit allow rules for GPTBot, Perplexity, Google-Extended, and Anthropic are still in robots.txt.

Glossary

SEO

Search Engine Optimization. Titles, descriptions, headings, links, sitemaps, and structured data that help a conventional search result.

GEO

Generative Engine Optimization. Clear entities and consistent facts that an AI answer engine can cite.

AEO

Answer Engine Optimization. Short answers, lists, and tables that a search result can lift into a snippet or a spoken reply.
