SEO / GEO / AEO Audit Report

SEO	GEO	AEO
10	10	10
Strong	*Strong*	*Strong*

17 October 2026

Claude Skill and Plugin by Alex Labat

Executive Summary

Local2PDF reaches 10/10/10 on this live crawl. Combined score: 30/30, up 1 from the v6 full audit earlier on 17 October 2026 (9/10/10, 29/30). SEO moves from 9 to 10 because the score-max deploy is live: PDF to PNG is 50 characters, the compress article is 54, the blog index is 721 words, Compatibility is 584, Contact is 638, and Changelog is 510. Every indexable meta description is 150–160 characters. GEO and AEO stay at 10. The only leftover polish is Reorder PDF Pages at 61 characters (one over the 50–60 band) and the conventional short Privacy and Terms titles.

Dimension	Score	Status	Key Takeaway
SEO	**10/10**	Strong	The v6 blockers are gone: short titles, thin pages, and description length.
GEO	**10/10**	Strong	Ads-off claim, author entity, contact emails, and library citations stay aligned.
AEO	**10/10**	Strong	Tables, Speakable on tools and posts, and 40–60 word answers remain live.
Combined	**30/30**	Strong	Up 1 from the v6 full audit earlier on 17 October 2026 (29/30).

Score difference versus the prior full audit

The baseline is the v6 full audit of local2pdf.com on 17 October 2026, which scored 9 / 10 / 10. This crawl used the same 1–10 rubric on the live HTML. SEO moves when the signals that held it at 9 are no longer present. A 10 means the category has no Missing or Needs Attention signal left on scored indexable pages (Privacy and Terms short titles remain intentional exceptions).

Dimension	v6	Now	Change	Why it moved
SEO	9/10	10/10	**+1**	PDF-to-PNG and compress titles fixed; blog, Contact, Compatibility, Changelog clear 500 words.
GEO	10/10	10/10	**0**	No GEO signal moved. Ads-off and entity facts still agree.
AEO	10/10	10/10	**0**	Speakable now covers the three posts as well as tools.
Combined	29/30	30/30	**+1**	Baseline is the v6 full audit from earlier on 17 October 2026.

Earlier the same day the live site scored 7/6/7, then 8/7/8, then 8/8/8, then 9/9/9, then 9/10/10. This pass is 10/10/10.

Pages Audited

42 live URLs returned HTTP 200. Word counts are visible text after scripts and styles are removed.

URL	Page type	Notes
https://local2pdf.com/	Homepage	715 words. Title 51. FAQ H3s. Speakable on the 25-image answer.
https://local2pdf.com/pdf-tools	Directory	612 words. Title 54. Description 157.
https://local2pdf.com/tools/image-to-pdf	Tool	640 words. FAQ, HowTo, Speakable. 25-image cap.
https://local2pdf.com/tools/jpg-to-pdf	Tool	588 words. Title 51. Description 156.

https://local2pdf.com/compatibility	Compatibility	584 words — fixed from 473. Two comparison tables.
https://local2pdf.com/changelog	Changelog	510 words — fixed from 209. Intro restates July and October history.
https://local2pdf.com/privacy	Legal	517 words. Conventional short title (26). Ads-off section.
https://local2pdf.com/terms	Legal	523 words. Conventional short title (24).
https://local2pdf.com/robots.txt	Crawl policy	Allows major AI bots. Sitemap pointer present.
https://local2pdf.com/sitemap.xml	Sitemap	35 indexable URLs. lastmod 2026-10-17.
https://local2pdf.com/llms.txt	AI summary	Operator, 25-image cap, preferred pages.
https://local2pdf.com/llms-full.txt	AI full text	Libraries, browser floors, operator facts.
https://local2pdf.com/ai.txt	AI policy	Allow all. Preferred citation URLs.
https://local2pdf.com/ads.txt	Ads policy	No publisher record. Ads stated as off.

SEO Analysis

Score: 10/10 — Strong. Up from 9/10 in v6. The short titles and thin content pages that held SEO at 9 are fixed on the live site.

Technical On-Page

Signal	Finding	Status
Title tags	Indexable tool and content titles sit in or next to the 50–60 band. PDF to PNG is 50 (“PDF to PNG Locally — Lossless, Private | Local2PDF”). The compress article is 54. Homepage is 51. Reorder is 61 (one over). Privacy (26) and Terms (24) remain conventional legal titles. The doubled Compatibility brand is gone.	Good
Meta descriptions	Every indexable HTML description measures 150–160 characters. The noindex beta tool is 123 and is outside the indexable set.	Good
Heading hierarchy	Each HTML page has a single H1. Tool pages use How-do-I H2s. Posts use question H2s. Homepage FAQ questions are H3s. No duplicate How-do-I heading on combine-images.	Good
URL structure	Readable keyword paths. No tracking parameters.	Good

Signal	Finding	Status
Canonical	Self-referencing https://local2pdf.com URLs on every HTML page.	Good
Robots meta	index, follow on the indexable set. Extract-images is noindex and absent from the sitemap.	Good
Viewport	Present on HTML pages.	Good
Image alt text	Homepage and image-to-PDF images have alt text.	Good
Internal links	Tool pages, /pdf-tools, blog index, and About cross-link the catalog and operator pages.	Good
Open Graph and Twitter	og:title, og:description, og:image, and twitter:card are present on HTML pages.	Good

Content Quality

Signal	Finding	Status
Word count	Core tools, posts, About (540), Security (546), Compatibility (584), Contact (638), Changelog (510), and the blog index (721) clear 500 words. Privacy and Terms also clear 500.	Good
Keyword signals	Titles, H1s, and openings name the tool and the private, no-upload constraint.	Good
Freshness	Posts and sitemap lastmod are 2026-10-17. Changelog newest heading is October 17, 2026.	Good
Readability	Tools scan as steps and FAQs. Posts break into question H2s with a direct answer under the first one.	Good

Structured Data

Signal	Finding	Status
Schema types	Organization, WebSite, WebPage, WebApplication, Offer, FAQPage, HowTo, BreadcrumbList, Blog, BlogPosting, Person, ItemList, SpeakableSpecification.	Good
Organization completeness	Logo, support email, parentOrganization Firmify EOOD, addressCountry BG, sameAs to GitHub and Product Hunt.	Good
Tool entities	Indexable tools include WebApplication, Offer, FAQPage, HowTo, BreadcrumbList, SpeakableSpecification.	Good
Article entities	Posts are BlogPosting with Person author and Speakable. Blog index has Blog, Person, BlogPosting, and ItemList.	Good

GEO Analysis

Score: 10/10 — Strong. Unchanged from v6. GEO is how AI answer engines decide what to cite.

E-E-A-T Assessment

Signal	Finding	Status
Author	Posts and About name Atanas Ignatov, Manager of Firmify EOOD, with a Person node.	Good
About page	540 words. Firmify EOOD, UIC 208745197, Firmify and StoryKind links.	Good
Contact	638 words. Visible support@, privacy@, and security@ addresses. Email-only by design.	Good
Trust signals	sameAs to GitHub and Product Hunt. No invented testimonials.	Good
Advertising claim	Homepage, Security, Privacy, blog, and ads.txt agree: display advertising is currently off.	Good

Content for AI Synthesis

Signal	Finding	Status
Factual density	25-image cap, device-dependent PDF limits, browser floors, Firmify UIC, library list.	Good
Clear claim	Homepage H1 and lead say no uploads, no account, no watermark.	Good
External citations	About, Security, and the processing article link PDF.js and pdf-lib project pages.	Good
Entity clarity	Local2PDF, Firmify EOOD, and Atanas Ignatov are consistent across pages and AI files.	Good
Originality	Network-tab verification instructions remain on Security and the processing article.	Good
Limit consistency	25 images is the image-to-PDF cap. 25 pages is used to deny a page cap on PDF tools.	Good

Technical GEO

Signal	Finding	Status
AI discovery files	llms.txt, llms-full.txt, and ai.txt return 200.	Good
Crawler policy	robots.txt allows OAI-SearchBot, GPTBot, PerplexityBot, Google-Extended, anthropic-ai, CCBot, and *.	Good
HTTPS	Every fetched URL was HTTPS.	Good
sameAs	GitHub and Product Hunt on Organization.	Good
Sitemap	35 indexable routes. Beta extract-images excluded.	Good

AEO Analysis

Score: 10/10 — Strong. Unchanged from v6 on the primary signals. Posts now also carry Speakable markup.

Featured Snippet Eligibility

Signal	Finding	Status
Direct answer	Posts answer the first question in about 48–53 words. Homepage Speakable targets the 25-image FAQ.	Good
Definition pattern	llms.txt and About define Local2PDF as a privacy-first PDF toolkit.	Good
List content	Homepage four-step how-to. Tool pages use select, adjust, download.	Good
Table content	Compatibility has two HTML tables: browser/HEIC/offline and File API/Canvas/WebAssembly/Workers.	Good

Structured Answer Formats

Signal	Finding	Status
FAQ schema	FAQPage on homepage and tools.	Good
HowTo schema	HowTo and HowToStep on homepage and tools.	Good
Question headings	Tool How-do-I H2s. Homepage FAQ H3s. Post question H2s.	Good
Speakable schema	Homepage, every tool, and all three posts use SpeakableSpecification.	Good

Voice Search Readiness

Signal	Finding	Status
Conversational language	Plain second-person answers: no account, no watermark, files stay on device.	Good
Long-tail coverage	Dedicated pages for formats, the 25-image cap, compression, and local processing.	Good
Local signals	Software product: addressCountry BG and email. No phone or street by design.	Good

Priority Recommendations

Nothing here is severe enough to pull a score down from 10. These are optional polish items.

Priority	Issue	Dimension	Effort	Impact
Quick Win	Shorten the Reorder PDF Pages title by one character so the rendered title is 60 or under (now 61: “Reorder PDF Pages Locally — Drag, Sort & Save | Local2PDF”).	SEO	Low	Low
Quick Win	Optional: trim Privacy and Terms titles only if you want every legal page in the 50–60 band. Conventional short legal titles are acceptable.	SEO	Low	Low

What's Working Well

Strength	Evidence from this crawl
SEO score-max is live	PDF-to-PNG title 50, compress article 54, blog 721 words, Compatibility 584, Contact 638, Changelog 510.
Descriptions stay in range	All indexable descriptions are 150–160 characters.
Ads claim is consistent	Homepage, Security, Privacy, and ads.txt say display advertising is off.
Speakable covers tools and posts	Homepage, tool FAQs, and all three posts expose SpeakableSpecification.
Compatibility remains citable	Two tables cover browser floors and Web APIs.
AI crawlers are invited	robots.txt allows major AI agents. llms.txt, llms-full.txt, and ai.txt return 200.

The green rows above are observations from the 17 October 2026 live crawl. They are not a ranking guarantee.

What this audit did not measure

Core Web Vitals, rendered layout, and lab performance need a PageSpeed Insights run at pagespeed.web.dev. Backlinks, rankings, and Search Console coverage are outside an HTML crawl.

Glossary

SEO is traditional search optimization: titles, descriptions, headings, links, and structured data that help a page get crawled and ranked.

GEO is generative engine optimization: writing and marking up pages so AI answer engines such as ChatGPT Search, Perplexity, Gemini, and Google AI Overviews can cite them.

AEO is answer engine optimization: shaping a page so a featured snippet, a People Also Ask box, or a voice assistant can lift one direct answer.
