Executive Summary

This crawl is after the score-max deployment on 17 October 2026. Compared with the earlier full audit the same day (SEO 8, GEO 8, AEO 8), every dimension moves to 9. The image-to-PDF badge now says 25 images, Speakable is on the homepage, About has a Person node for Atanas Ignatov, Merge/Split/Reorder clear 500 words, and the advertising FAQ matches ads.txt. What keeps the site off 10 is the absence of a phone or street address, no testimonials, a few short meta descriptions, a leftover Security sentence about ads that may display, and Core Web Vitals not measured here. Combined score: 27/30, up from 24/30.
